

## EXL Reports 2019 Third Quarter Results

October 29, 2019

**2019 Third Quarter Revenues of \$251.4 Million, up 8.8% year-over-year**  
**Q3 Diluted EPS (GAAP) of \$0.55, up from \$0.43 in Q3 of 2018**  
**Q3 Adjusted Diluted EPS (Non-GAAP) of \$0.84, up from \$0.71 in Q3 of 2018**

NEW YORK, Oct. 29, 2019 (GLOBE NEWSWIRE) -- ExlService Holdings, Inc. (NASDAQ: EXLS), a leading operations management and analytics company, today announced its financial results for the quarter ended September 30, 2019.

Rohit Kapoor, Vice Chairman and Chief Executive Officer, said, "EXL generated revenues of \$251.4 million during the third quarter of 2019, up 8.8% year-over-year, and adjusted diluted EPS of \$0.84, up 18.3%, year-over-year.

"The strong growth in operations management this quarter is reflective of the investment EXL has made to create digital solutions and digitally-enabled operating models to deliver business outcomes for our clients. These solutions orchestrate our deep domain expertise with data capabilities, advanced analytics and digital technologies, enhancing our position as a strategic digital transformation partner in our markets. Our pipeline across insurance, healthcare and analytics remains strong as we end 2019 and look forward to continued growth momentum in 2020."

Vishal Chhibbar, Chief Financial Officer, said, "We are narrowing our revenue guidance for 2019 to \$980 million - \$990 million from \$976 million - \$996 million. The mid-point of our guidance is at \$985 million to reflect better performance in the third quarter, an annual revenue forecast of approximately \$12 million for Health Integrated offset by a foreign exchange headwind of \$2 million. Our guidance now represents annual revenue growth of 12% to 13% on a constant currency basis. Our adjusted diluted EPS guidance for 2019 is being increased to \$2.95 - \$3.05 from \$2.86 - \$2.98. Our balance sheet remains strong with cash and short-term investments of \$280.8 million as of September 30, 2019."

### Financial Highlights: Third Quarter 2019

#### Reconciliation of Adjusted Financial Measures to GAAP Measures

In addition to its reported operating results in accordance with U.S. generally accepted accounting principles (GAAP), EXL has included in this release certain financial measures that are considered non-GAAP financial measures, including the following:

- (i) Adjusted operating income and adjusted operating income margin;
- (ii) Adjusted EBITDA and adjusted EBITDA margin;
- (iii) Adjusted net income and adjusted diluted earnings per share; and
- (iv) Revenue growth on a constant currency basis.

These non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles, should not be considered a substitute for, or superior to, financial measures calculated in accordance with GAAP, and may be different from non-GAAP financial measures used by other companies. Accordingly, the financial results calculated in accordance with GAAP and reconciliations from those financial statements should be carefully evaluated. EXL believes that providing these non-GAAP financial measures may help investors better understand EXL's underlying financial performance. Management also believes that these non-GAAP financial measures, when read in conjunction with EXL's reported results, can provide useful supplemental information for investors analyzing period-to-period comparisons of the Company's results and comparisons of the Company's results with the results of other companies. Additionally, management considers some of these non-GAAP financial measures to determine variable compensation of its employees. The Company believes that it is unreasonably difficult to provide its earnings per share financial guidance in accordance with GAAP for a number of reasons, including, without limitation, the Company's inability to predict its future stock-based compensation expense under ASC Topic 718, the amortization of intangibles associated with further acquisitions and the currency fluctuations and associated tax impacts. As such, the Company presents guidance with respect to adjusted diluted earnings per share. The Company also incurs significant non-cash charges for depreciation that may not be indicative of the Company's ability to generate cash flow.

EXL non-GAAP financial measures exclude, where applicable, stock-based compensation expense, provision for litigation settlement, non-cash interest expense on convertible senior notes, restructuring charges and acquisition-related expenses. Acquisition-related expenses include, amortization of acquisition-related intangible assets, changes in the fair value of earn-out consideration liabilities, impairment charges of acquired long-lived and intangible assets including goodwill and other acquisition-related costs and benefits such as external deal costs, integration expenses, direct and incremental travel costs and non-recurring benefits. In addition to excluding the above items, our adjusted net income and adjusted diluted EPS also excludes the effect of incremental income tax expense related to the U.S. Tax Cuts and Jobs Act of 2017 (the "Tax Reform Act"), non-recurring other tax adjustments and income tax impact of the above pre-tax items, as applicable. The income tax impact of each item is calculated by applying the statutory rate and local tax regulations in the jurisdiction in which the item was incurred.

A limitation of using non-GAAP financial measures versus financial measures calculated in accordance with GAAP is that non-GAAP financial measures do not reflect all of the amounts associated with our operating results as determined in accordance with GAAP and exclude costs that are recurring, namely stock-based compensation and amortization of acquisition-related intangible assets. EXL compensates for these limitations by providing specific information regarding the GAAP amounts excluded from non-GAAP financial measures to allow investors to evaluate such non-GAAP financial measures.

Effective second quarter of 2018, EXL excludes other acquisition-related costs such as external deal costs, integration expenses and direct and incremental travel costs pertaining to successful acquisitions from its non-GAAP financial measures, wherever applicable. Considering EXL's frequent acquisitions of varying scale and size, and the difficulty in predicting expenses relating to acquisitions, EXL's management believes that providing non-GAAP financial measures that exclude such expenses allows investors to make additional comparisons from period-to-period and between EXL's operating results and those of other companies. Other acquisition-related costs are excluded in the period in which an acquisition is consummated.

The information provided on a constant currency basis reflects a comparison of current period results translated at the prior period currency rates. This information is provided because EXL believes that it provides useful comparative incremental information to investors regarding EXL's true operating performance. EXL's primary exchange rate exposure is with the Indian Rupee, the U.K. pound sterling and the Philippine Peso. The average exchange rate of the U.S. Dollar against the Indian Rupee decreased from 70.67 during the quarter ended September 30, 2018 to 70.35 during the quarter ended September 30, 2019, representing an appreciation of 0.4%. The average exchange rate of the U.S. Dollar against the Philippine Peso decreased from 53.53 during the quarter ended September 30, 2018 to 51.59 during the quarter ended September 30, 2019, representing an appreciation of 3.6%. The average exchange rate of the British Pound against the U.S. Dollar decreased from 1.31 during the quarter ended September 30, 2018 to 1.22 during the quarter ended September 30, 2019, representing a depreciation of 6.8%.

The following table shows the reconciliation of these non-GAAP financial measures for the three months ended September 30, 2019 and September 30, 2018, and the three months ended June 30, 2019:
